ViBe Creative District Mural Festival presented by TowneBank to feature 10 NEW murals in 10 days by 10 artists this May

(Virginia Beach, VA) May 1, 2019-- The [ViBe Creative District nonprofit](#) announced today that the public is welcomed to come witness the second annual ViBe Mural Festival presented by TowneBank this May 10 - 19, 2019. A total of 10 new murals will be painted by 10 different national and local artists at private properties through the arts district next month (featured artists and locations below). The project allows the artists a 10-day time frame to paint their artwork designs to completion providing the public ample time to explore and meet the artists while they work.

The nonprofit published an [open call for muralists](#) in March 2019 to select the artists, which will each receive a stipend of \$3,000 and materials reimbursement up to \$1,000. The two-week open call received 110 submissions from artists in 17 states across the country (32%) as well as 10 different cities in Virginia (68%). Over 350 images were provided to the 10 local businesses and property owners hosting the new murals to help them select their favorite artist, the nonprofit handled all logistics to pair artists with the businesses.

“Adding large scale art to the district is an important part of our nonprofit’s mission to make an impact in this neighborhood,” said Kate Pittman, executive director of the ViBe Creative District nonprofit. “The best part is witnessing the live mural painting by the ten artists throughout the district which acts as performance art as the murals unfold over the course of the ten days.”

All 10 locations are located within a short one mile walk and were selected by the ViBe Creative District nonprofit over the last year as the locally owned businesses and property owners expressed interest in participating in a mural project to support the district’s growth. These public artworks will help create a sense of place and arrival within the arts district. Property owners have committed to preserving the murals for a minimum of 2 years and posting a sponsor plaque to recognize the funders.

TowneBank, also located within the ViBe District in the Runnymede Corporation property, signed on as a lead sponsor of the festival to help underwrite the cost of the 10 murals along with community events where the public is invited to meet the artists and celebrate the arts. The district now boasts nearly 50 murals and creative crosswalks.

NEW THIS YEAR:

- Kick Off Party at Croc's 19th St Bistro to welcome the artists to the ViBe District and offer an exclusive sneak peek of all murals. Special opportunity for media interviews.
- Contemporary art gallery BOJUart will feature an exhibition of fine art available for purchase from the featured muralists. "The Flip Side" will be on view all week. A special sponsors event will be held on Thursday night to recognize the community partners who have made this festival possible.

NAOMI MCCAIVITT OF THICKET DESIGN

"We hold in our hands just one core belief. That in a world where people are as busy as they have ever been, we risk losing ourselves. We risk losing our humanity. The quiet self-reflections in nature that for thousands of years have brought stillness to the human experience are increasingly rare in our hurried urban life. Endangering all that we are, and have been. So we stand in defiance." Thicket works with designers, retailers, and agencies who share this need to reconnect human to nature. We aspire to create modern heirlooms: hand-made artifacts of the natural world. <http://thicketdesign.net/> @thicketdesign

JURRI ROBERTSON

As a Japanese+American with mixed-geographic upbringing, "home" has been an elusive concept for me my entire life. In my art, I find solace in the melancholy faces of my girls surrounded by florals and traditional kimono pattern. I feel purpose in my portraits of unlikely warriors, and a wonder at the fellowship of suffering that knows no geographic bounds. In street art, all these things are amplified due to the scale and visibility of the work. I'm struck with wonder when someone happens to see their own story or struggle in one of my works.

It's a magical moment, as if my own thoughts for a short time run exactly parallel to a complete stranger's. This amazing ability for art to engage with the viewer and morph to take on their story, is perhaps one of the most important things that has become "home" to me. www.juuriart.com @juuriart83
